

COUNTY of ROCKINGHAM

Finance Department

Date: December 4, 2018

To: Potential Bidders

Re: ITB 18-102418 Massanetta Springs Rd (SR 687) Improvement Project

Rockingham County is hereby issuing an addendum to the ITB for the above referenced project.

1. Clarification: The bid will still be a lump sum bid. The bid form has been revised to require the bidder to remove quantities and to provide unit prices only for use during a change event due to change in scope. Please note that this is a lump sum job and shall be bid as shown regardless of quantities. Again, the unit prices are for change events only.
2. Clarification: Since the job is lump sum and unit prices are requested only for change events, bidders shall add line items for unit prices as they see necessary. Missing line items or unused items do not constitute a change in scope and therefore will not alter the lump sum bid.
3. Question: How will items allowing a fuel adjustment be paid? Answer: They will be paid on actual quantities.
4. Question: Is there a designated staging/laydown area? Answer: This is still being coordinated with a neighboring property owner and will be further clarified in future addenda.
5. Question: The revised bid form doesn't include a line item for price. Answer: the bid form no longer requires line item prices since it is a lump sum job with unit prices only for change events.
6. Question: Will the construction completion date move based on the new NTP date? Answer: Yes, the new construction completion date is now October 11, 2019.
7. Question: A line item for Trench Rock is needed on the bid form. Answer: Revised bid form now includes Trench Rock.
8. Question: Is there a requirement for all domestic materials on this project? Answer: No, this is not a federally funded project and therefore all materials are not required to be domestic.

Note: This addendum shall be acknowledged on the bid form. Additionally, the Pre-bid meeting minutes shall be acknowledged in the same manner as addenda on the bid form.

Sincerely,

Justin Moyers
